48 CFR Parts 2, 10, et al.
Federal Acquisition Regulation; Special Emergency Procurement Authority; Small Entity Compliance Guide; Interim Rules
Federal Acquisition Regulation; Special Emergency Procurement Authority

AGENCIES: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Interim rule with request for comments.

SUMMARY: The Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) have agreed on an interim rule amending the Federal Acquisition Regulation (FAR) to implement the special emergency procurement authorities of section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108–136). The Councils will publish a final rule upon receipt and evaluation of comments received in response to this interim rule.

Section 1443 increases the amount of the micro-purchase threshold and the simplified acquisition threshold for procurements of supplies or services by or for an executive agency that, as determined by the head of the agency, are to be used in support of a contingency operation or to facilitate the defense against or the recovery from nuclear, biological, chemical, or radiological attack. Also, the head of the contracting activity carrying out a procurement of supplies or services to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack may treat such supplies or services as a commercial item.

Comment Date: Interested parties should submit comments to the FAR Secretariat at the address shown below on or before April 23, 2004 to be considered in the formulation of a final rule.

ADDRESSES: Submit written comments to—General Services Administration, FAR Secretariat (MVA), 1800 F Street, NW., Room 4035, Attn: Ms. Laurie Duarte, Washington, DC 20405.

SUPPLEMENTARY INFORMATION:

A. Background

This interim rule implements Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108–136). Section 1443 increases the amount of the micro-purchase threshold and the simplified acquisition threshold for procurements of supplies or services by or for an executive agency that, as determined by the head of the agency, are to be used in support of a contingency operation or to facilitate the defense against or the recovery from nuclear, biological, chemical, or radiological attack. Section 1443 also authorizes the expanded use of Simplified Acquisition and Commercial Items procedures.

This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act

The changes may have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601 et seq. However, the increased thresholds are limited to procurements that support a contingency operation or to facilitate the defense against or the recovery from nuclear, biological, chemical, or radiological attack. There are no data available on the number of procurements that will be eligible. We expect the increased thresholds to this limited class of procurements to apply to a very small number of small entities.

An Initial Regulatory Flexibility Act Analysis has been prepared and is as follows:

Initial Regulatory Flexibility Act Analysis—FAR Case 2003–022

This Initial Regulatory Flexibility Analysis has been prepared in accordance with Section 603, Title 5, of the United States Code.

1. Description of the reasons why action by the agency is being considered. This interim rule amends the Federal Acquisition Regulation (FAR) in order to implement Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108–136). Section 1443 increases the amount of the micro-purchase threshold and the simplified acquisition threshold for procurements of supplies and services to support a contingency operation or to facilitate defense against or recovery from nuclear, biological, chemical, or radiological attack.

2. Succinct statement of the objectives of, and legal basis for, the interim rule. This interim rule implements Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108–136).

3. Description of, and, where feasible, estimate of the number of small entities to which the interim rule will apply. The increased thresholds are limited to procurements that are to support a contingency operation or to facilitate defense against or recovery from a nuclear, biological, chemical, or radiological attack. There are no data available on the number of procurements that will be eligible. However, we expect the number of small entities that will be impacted by the increased thresholds in this limited class of procurements to be very small. In addition, although not required by the statute, the interim rule raises the small business set-aside ceilings for purchases made under the authority of Section 1443 of the Services Acquisition Reform Act of 2003 (Title XIV of Pub. L. 108–136).

4. Description of projected reporting, record keeping, and other compliance requirements of the interim rule, including an estimate of the number of small entities which will be subject to the requirement and the type of professional skills necessary for preparation of the report or record. There are no reporting, record keeping, or other compliance requirements for this interim rule.

5. Identification, to the extent practicable, of all relevant Federal rules which may duplicate, overlap, or conflict with the interim rule. This rule does not duplicate, overlap, or conflict with other relevant Federal rules.

6. Description of any significant alternatives to the interim rule, which accomplish the stated objectives of applicable statutes and which minimize any significant economic impact of the interim rule on small entities. There are no significant alternatives to the interim rule that would accomplish the stated objectives yet further reduce impact on small entities. The rule includes only FAR text revisions required to implement the statute.

The FAR Secretariat has submitted a copy of the Initial Regulatory Flexibility Analysis (IRFA) to the Chief Counsel for Advocacy of the Small Business Administration. Interested parties may obtain a copy from the FAR Secretariat. The Councils will consider comments from small entities concerning the affected FAR parts 10, 12, 13, 15, 19, and 25 in accordance with 5 U.S.C. 610. Interested parties must submit such

C. Paperwork Reduction Act

The Paperwork Reduction Act does not apply because the changes to the FAR do not impose information collection requirements that require the approval of the Office of Management and Budget under 44 U.S.C. 3501, et seq.

D. Determination To Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense (DoD), the Administrator of General Services (GSA), and the Administrator of the National Aeronautics and Space Administration (NASA) that urgent and compelling reasons exist to promulgate this interim rule without prior opportunity for public comment. This action is necessary because the FAR coverage implements Section 1443 of the Services Acquisition Reform Act of 2003, signed on November 24, 2003, which provides urgently needed emergency authorities. However, pursuant to Public Law 98–577 and FAR 1.501, the Councils will consider public comments received in response to this interim rule in the formation of the final rule.
