

SUPPLEMENTARY INFORMATION: In the final rules section of this **Federal Register**, EPA is approving TCEQ's request for delegation of authority to implement and enforce certain NESHAP for all sources (both part 70 and non-part 70 sources). TCEQ has adopted certain NESHAP by reference into Texas's state regulations. In addition, EPA is waiving its notification requirements so sources will only need to send notifications and reports to TCEQ.

The EPA is taking direct final action without prior proposal because EPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for this proposed approval is set forth in the preamble to the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn, and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting must do so at this time. If EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

For additional information, see the direct final rule which is located in the Rules section of this **Federal Register**.

Federal Acquisition Regulation; Inflation Adjustment of Acquisition- Related Thresholds

AGENCY: Department of Defense (DoD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Proposed rule.

SUMMARY: DoD, GSA, and NASA are proposing to amend the Federal Acquisition Regulation (FAR) to further implement the inflation adjustment of acquisition-related dollar thresholds. A statute requires an adjustment every five years of acquisition-related thresholds for inflation using the Consumer Price Index for all urban consumers, except for the Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds. DoD, GSA, and NASA are also proposing to use the same methodology to adjust nonstatutory FAR acquisition-related thresholds in 2015.

DATES: Interested parties should submit written comments to the Regulatory Secretariat at one of the addresses shown below on or before January 26, 2015 to be considered in the formation of the final rule.

SUPPLEMENTARY INFORMATION:

I. Background

This rule proposes to amend multiple FAR parts to further implement 41 U.S.C. 1908. Section 1908 requires an adjustment every five years (on October 1 of each year evenly divisible by five) of statutory acquisition-related thresholds for inflation, using the Consumer Price Index (CPI) for all urban consumers, except for the Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds (see FAR 1.109). As a matter of policy, DoD, GSA, and NASA are also proposing to use the same methodology to adjust nonstatutory FAR acquisition-related thresholds on October 1, 2015.

This is the third review of FAR acquisition-related thresholds since the statute was passed on October 28, 2004 (section 807 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year (FY) 2005). The last review was conducted under FAR Case 2008-024 during FY 2010. The final rule was published in the **Federal Register** at 75 FR 53129 on August 30, 2010, and was effective October 1, 2010.

II. Analysis.

A. What is an acquisition-related threshold?

This case builds on the review of FAR thresholds in FY 2005 and FY 2010, using the same interpretation of an acquisition-related threshold. 41 U.S.C. 1908 is applicable to "a dollar threshold that is specified *in law* as a factor in defining the scope of the applicability of a policy, procedure, requirement, or restriction provided *in that law* to the procurement of property or services by an executive agency, as the FAR Council determines."

There are other thresholds in the FAR that, while not specified in law, nevertheless meet all the other criteria. These thresholds may have their origin in Executive order or regulation.

Therefore, the FAR Council has determined, that in this case, “acquisition-related threshold” has a broader meaning, *i.e.*, a threshold that is specified *in law, Executive order, or regulation* as a factor in defining the scope of the applicability of a policy, procedure, requirement, or restriction provided *in that law, Executive order, or regulation* to the procurement of property or services by an Executive agency. DoD, GSA, and NASA conclude that acquisition-related thresholds are generally tied to the value of a contract, subcontract, or modification.

Examples of thresholds that are not “acquisition-related,” as defined in this case, are thresholds relating to claims, penalties, withholding, payments, required levels of insurance, small business size standards, liquidated damages, etc. This rule does not address thresholds that are not acquisition-related.

B. What acquisition-related thresholds are not subject to escalation adjustment under this case?

41 U.S.C. 1908 does not permit escalation of acquisition-related thresholds established by the Construction Wage Rate Requirements statute (Davis Bacon Act), the Service Contract Labor Standards statute, or the United States Trade Representative pursuant to the authority of the Trade Agreements Act of 1979.

Also, the statute does not authorize the FAR to escalate thresholds originating in Executive order or the implementing agency (such as the Department of Labor or the Small Business Administration), unless the Executive order or agency regulations are first amended.

C. How do the Defense Acquisition Regulations Council and the Civilian Agency Acquisition Council (the Councils) analyze a statutory acquisition-related threshold?

If an acquisition-related threshold is based on statute, the matrix at <http://acquisition.gov/far/facsframe.html> identifies the statute and the statutory threshold, including the original threshold and any FAR revisions.

With the exception of thresholds set by the Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and the United States Trade Representative pursuant to the authority of the Trade Agreements Act of 1979, 41 U.S.C. 1908 requires that the FAR Council adjust the acquisition-related thresholds for inflation using the CPI for all urban consumers. Acquisition-related thresholds in statutes that were

in effect on October 1, 2000, are only subject to escalation from that date forward. For purposes of this proposed rule, the matrix includes calculation of escalation based on the estimated CPI value for March 2015 (currently estimated at 243.0) divided by the CPI for the date of enactment of the statute or regulation (October 2000, for statutes enacted prior to October 1, 2000). The Councils will subsequently adjust as necessary before issuance of the final rule.

Once the escalation factor is applied to the acquisition-related threshold, then the threshold must be rounded as follows:

<\$10,000	Nearest \$500.
\$10,000–<\$100,000	Nearest \$5,000.
\$100,000–<\$1,000,000 ..	Nearest \$50,000.
\$1,000,000 or more	Nearest \$500,000.

The calculations in this proposed rule are all based on the base year amount, because escalated amounts in the 2010 rule were subject to rounding and using those amounts as the base would distort future calculations.

In 2010, some thresholds (*e.g.*, \$3,000), although subject to inflation calculation, did not actually change, because the inflation in 2010 was insufficient to overcome the rounding requirements *i.e.*, the escalation factor, when applied, did not cause the escalated values to be high enough to round to the next higher value. However, in FY 2015, thresholds that did not escalate in 2010 will now escalate because of five additional years of inflation. Likewise, some thresholds that were escalated in 2010 (*e.g.*, \$150,000) will not escalate in 2015.

The thresholds for defining a major system were previously stated in FY 1990 constant dollars for DoD and in FY 1980 constant dollars for civilian agencies. The 2005 rule converted the base year for these major system thresholds to 2004 dollars, that were then adjusted in October 2005 and also adjusted in October 2010. Although the FAR will continue to escalate the major systems threshold for the civilian agencies, DoD has determined that for DoD, the major systems thresholds in the FAR must be consistent with the major systems thresholds in DoD Instruction 5000.02, established in accordance with the authority in 10 U.S.C. 2302d(c)(1). This allows the Secretary of Defense to adjust the amounts (and the base fiscal year) provided in subsection (a) on the basis of DoD escalation rates (rather than the CPI for all urban consumers). The revised figures were calculated by the DoD Comptroller, and coordinated with

the Cost Assessment and Program Evaluation (CAPE) Office and the DoD General Counsel. In accordance with 10 U.S.C. 2302d(c)(3), DoD reported these thresholds to Congress in December 2013.

This proposed rule has been coordinated with the Department of Labor and the Small Business Administration in areas of the regulation for which they are the lead agency. As appropriate, any changes to cost accounting standards (CAS) thresholds will be coordinated with the CAS Board and addressed under a separate case.

D. How do the Councils analyze a nonstatutory acquisition-related threshold?

No statutory authorization is required to escalate thresholds that are policy-based within the FAR. For consistency, escalation of the FAR policy acquisition-related thresholds is recommended using the same formula applied to the statutory thresholds, unless there is a valid reason for not doing so.

E. What is the effect of this proposed rule on the most heavily-used thresholds?

This rule includes the following proposed changes to heavily-used thresholds:

- The micro-purchase threshold of \$3,000 (FAR 2.101) will increase to \$3,500. The Title 41 recodification (Pub. L. 111–350, enacted January 4, 2011) relocated the micro-purchase authorization to 41 U.S.C. 1902, and raised the micro-purchase threshold to \$3,000 (equivalent to the escalated value in the FAR). However, as Congress stated in House Report 111–42, the recodification statute did not intend to make any substantive changes, therefore the inflation calculation will continue to be calculated based on the October 2000 amount of \$2,500, not the January 2011 value of \$3,000.
- The simplified acquisition threshold (FAR 2.101) of \$150,000 will not change.
- The FedBizOpps preaward and post-award notices (FAR Part 5) remain at \$25,000 because of trade agreements.
- Commercial items test program ceiling (FAR 13.500) will increase from \$6.5 million to \$7 million.
- The cost or pricing data threshold (FAR 15.403–4) will increase from \$700,000 to \$750,000.
- The prime contractor subcontracting plan (FAR 19.702) floor will increase from \$650,000 to \$700,000.

but the construction threshold of \$1.5 million will not change.

- The threshold for reporting first-tier subcontract information including executive compensation will increase from \$25,000 to \$30,000 (FAR subpart 4.14 and section 52.204–10).

This proposed rule is based on a projected CPI of 243 for March 2015. If the actual CPI for March 2015 is higher than 243, then additional statutory thresholds may be subject to escalation in the final rule, even though not included in the proposed rule.

F. Other Changes in the Rule

- FAR 12.102(g) is being deleted as obsolete.
- The \$30,000 threshold at FAR 13.106–2(c)(2) and (d) returns to \$25,000 to harmonize with the 5.101(a)(1) threshold for synopsis preaward notices in FedBizOpps.

III. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

IV. Regulatory Flexibility Act

DoD, GSA, and NASA do not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*, because the rule maintains the status quo by adjusting thresholds for actual inflationary increases in the CPI. However, an Initial Regulatory Flexibility Analysis has been performed and is summarized as follows:

This rule will amend the Federal Acquisition Regulation to implement 41 U.S.C. 1908 and to amend other acquisition-related dollar thresholds that are based on policy rather than statute in order to adjust for the changing value of the dollar. 41 U.S.C. 1908 requires adjustment every five years of statutory acquisition-related dollar thresholds, except for Construction Wage Rate Requirements statute (Davis-Bacon Act), Service Contract Labor Standards statute, and trade agreements thresholds. While

reviewing all statutory acquisition-related thresholds, this case presented an opportunity to also review all nonstatutory acquisition-related thresholds in the FAR that are based on policy.

The objective of the case is to maintain the status quo, by adjusting acquisition-related thresholds for inflation. The legal basis is 41 U.S.C. 1908. The statute does not authorize the FAR to escalate thresholds originating in Executive orders or the implementing agency (such as the Department of Labor or the Small Business Administration), unless the Executive order or agency regulations are first amended.

This rule will have a minimal impact on small business concerns that submit offers or are awarded contracts by the Federal Government. However, most of the threshold changes proposed in this rule are not expected to have any significant economic impact on small business concerns because the threshold changes are intended to maintain the status quo by adjusting for changes in the value of the dollar. Often any impact will be beneficial, by preventing burdensome requirements from applying to more and more acquisitions, as the dollar loses value.

One threshold change in this rule which may temporarily impact small business concerns is the increase in the micro-purchase threshold (FAR 2.101) from \$3,000 to \$3,500. This will temporarily narrow the dollar range within which acquisitions are automatically set aside for small business concerns, because the simplified acquisition threshold of \$150,000 will not increase at this time. To assess the impact of the increase in the micro-purchase threshold from \$3,000 to \$3,500, data was requested from FPDS–NG. For FY 2013, there were 83,951 contracts and calls/orders between \$3,000 and \$3,500, with a value of \$272,567,926. Of these actions, 34,828 (value of \$113,280,333) were awarded to small business concerns. DoD, GSA, and NASA expect that many of these awards will still go to small business concerns, even if there is no longer a requirement to automatically set the procurement aside for small business concerns.

The rule does not impose any new reporting, recordkeeping, or compliance requirements. Changes in thresholds for approved information collection requirements are intended to maintain the status quo and prevent those requirements from increasing over time.

The rule does not duplicate, overlap, or conflict with any other Federal rules.

There are no practical alternatives that will accomplish the objectives of the statute.

The Regulatory Secretariat has submitted a copy of the IRFA to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the IRFA may be obtained from the Regulatory Secretariat. DoD, GSA, and NASA invite comments from small business concerns and other interested parties on the expected impact of this rule on small entities.

DoD, GSA, and NASA will also consider comments from small entities

concerning the existing regulations in subparts affected by the rule in accordance with 5 U.S.C. 610. Interested parties must submit such comments separately and should cite 5 U.S.C. 610 (FAR Case 2014–022), in correspondence.

V. Paperwork Reduction Act

The Paperwork Reduction Act does apply. The proposed changes to the FAR do not impose new information collection requirements that require the approval of the Office of Management and Budget (OMB) under 44 U.S.C. 3501, *et seq.* By adjusting the thresholds for inflation, the status quo for the current information collection requirements are maintained under the following OMB clearance numbers: 9000–0006, titled: Subcontracting Plans/Individual Subcontract Report (SF 294); 9000–0007, titled: Summary Subcontract Report; 9000–0094, titled: Debarment and Suspension; 9000–0164, titled: Contractor Business Ethics Compliance Program and Disclosure Requirements; 9000–0177, titled: Reporting Executive Compensation and First-tier Subcontract Awards; 1250–0004, titled: OFCCP Recordkeeping and Reporting Requirements—38 U.S.C. 4212, Vietnam Era Veterans' Readjustment Assistance Act of 1974, as amended; and 1293–0005, titled: Federal Contractor Veterans Employment Report, VETS–100/VETS–100A.

GENERAL INSTRUCTIONS

1. This report is not required for small businesses.
2. This report is not required for commercial items for which a commercial plan has been approved, nor from large businesses in the Department of Defense (DOD) Test Program for Negotiation of Comprehensive Subcontracting Plans. The Summary Subcontract Report (SSR) is required for contractors operating under one of these two conditions and should be submitted to the Government in accordance with the instructions on that form.
3. This form collects subcontract award data from prime contractors/subcontractors that: (a) hold one or more contracts over \$700,000 (over \$1,500,000 for construction of a public facility); and (b) are required to report subcontracts awarded to Small Business (SB), Small Disadvantaged Business (SDB), Women-Owned Small Business (WOSB), HUBZone Small Business (HUBZone SB), Veteran-Owned Small Business (VOSB) and Service-Disabled Veteran-Owned Small Business concerns under a subcontracting plan. For the Department of Defense (DOD), the National Aeronautics and Space Administration (NASA), and the Coast Guard, this form also collects subcontract award data for Historically Black Colleges and Universities (HBCUs) and Minority Institutions (MIs).
4. This report is required for each contract containing a subcontracting plan and must be submitted to the administrative contracting officer (ACO) or contracting officer if no ACO is assigned, semi-annually, during contract performance for the periods ended March 31st and September 30th. A separate report is required for each contract at contract completion. Reports are due 30 days after the close of each reporting period unless otherwise directed by the contracting officer. Reports are required when due, regardless of whether there has been any subcontracting activity since the inception of the contract or since the previous report.
5. Only subcontracts involving performance in the United States or its outlying areas should be included in this report with the exception of subcontracts under a contract awarded by the State Department or any other agency that has statutory or regulatory authority to require subcontracting plans for subcontracts performed outside the United States and its outlying areas.
6. Purchases from a corporation, company, or subdivision that is an affiliate of the prime/subcontractor are not included in this report.
7. Subcontract award data reported on this form by prime contractors/subcontractors shall be limited to awards made to their immediate subcontractors. Credit cannot be taken for awards made to lower tier subcontractors unless you have been designated to receive an SB and SDB credit from an Alaska Native Corporation (ANC) or Indian tribe.
8. FAR 19.703 sets forth the eligibility requirements for participating in the subcontracting program.
9. Actual achievements must be reported on the same basis as the goals set forth in the contract. For example, if goals in the plan do not include indirect and overhead items, the achievements shown on this report should not include them either.

SPECIFIC INSTRUCTIONS

BLOCK 2: For the Contractor Identification Number, enter the nine-digit Data Universal Numbering System (DUNS) number that identifies the specific contractor establishment. If there is no DUNS number available that identifies the exact name and address entered in Block 1, contact Dun and Bradstreet Information Services at 1-866-705-5711 or via the Internet at <http://www.dnb.com>. The contractor should be prepared to provide the following information: (i) Company legal business name; (ii) Tradestyle, doing business, or other name by which your entity is commonly recognized; (iii) Company physical street address, city, state and ZIP Code; (iv) Company mailing address, city, state and ZIP Code (if separate from physical); (v) Company telephone number; (vi) Date the company was started; (vii) Number of employees at your location; (viii) Chief executive officer/key manager; (ix) Line of business (industry); (x) Company Headquarters name and address (reporting relationship within your entity).

BLOCK 4: Check only one. Note that all subcontract award data reported on this form represents activity since the inception of the contract through the date indicated on this block.

BLOCK 5: Check whether this report is a "Regular," "Final," and/or "Revised" report. A "Final" report should be checked only if the contractor has completed the contract or subcontract reported in Block 7. A "Revised" report is a change to a report previously submitted for the same period.

BLOCK 6: Identify the department or agency administering the majority of subcontracting plans.

BLOCK 7: Indicate whether the reporting contractor is submitting this report as a prime contractor or subcontractor and the prime contract or subcontract number.

BLOCK 8: Enter the name and address of the Federal department or agency awarding the contract or the prime contractor awarding the subcontract.

BLOCK 9: Check the appropriate block to indicate whether indirect costs are included in the dollar amounts in blocks 10a through 16. To ensure comparability between the goal and actual columns, the contractor may include indirect costs in the actual column only if the subcontracting plan included indirect costs in the goal.

BLOCKS 10a through 18: Under "Current Goal," enter the dollar and percent goals in each category (SB, SDB, WOSB, VOSB, service-disabled VOSB, and HUBZone SB) from the subcontracting plan approved for this contract. (If the original goals agreed upon at contract award have been revised as a result of contract modifications, enter the original goals in Block 19. The amounts entered in Blocks 10a through 16 should reflect the revised goals.) There are no goals for Blocks 17 and 18. Under "Actual Cumulative," enter actual subcontract achievements (dollars and percent) from the inception of the contract through the date of the report shown in Block 4. In cases where indirect costs are included, the amounts should include both direct awards and an appropriate prorated portion of indirect awards. However, the dollar amounts reported under "Actual Cumulative" must be for the same period of time as the dollar amounts shown under "Current Goal." For a contract with options, the current goal should represent the aggregate goal since the inception of the contract. For example, if the contractor is submitting the report during Option 2 of a multiple year contract, the current goal would be the cumulative goal for the base period plus the goal for Option 1 and the goal for Option 2.

BLOCK 10a: Report all subcontracts awarded to SBs including subcontracts to SDBs, WOSB, VOSB, service-disabled VOSB, and HUBZone SBs. For DOD, NASA, and Coast Guard contracts, include subcontracting awards to HBCUs and MIs. Include subcontracts awarded to ANCs and Indian tribes that are not small businesses and that are not certified by the SBA as SDBs where you have been designated to receive their SB and SDB credit. Where your company and other companies have been designated by an ANC or Indian tribe to receive SB and SDB credit for a subcontract awarded to the ANC or Indian tribe, report only the portion of the total amount of the subcontract that has been designated to your company.

BLOCK 10b: Report all subcontracts awarded to large businesses (LBs) and any other-than-small businesses. Do not include subcontracts awarded to ANCs and Indian tribes that have been reported in 10a above.

BLOCK 10c: Report on this line the total of all subcontracts awarded under this contract (the sum of lines 10a and 10b).

BLOCKS 11 - 16: Each of these items is a subcategory of Block 10a. Note that in some cases the same dollars may be reported in more than one block (e.g., SDBs owned by women or veterans).

BLOCK 11: Report all subcontracts awarded to SDBs (including WOSB, VOSB, service-disabled VOSBs, and HUBZone SB SDBs). Include subcontracts awarded to ANCs and Indian tribes that have not been certified by SBA as SDBs where you have been designated to receive their SDB credit. Where your company and other companies have been designated by an ANC or Indian tribe to receive their SDB credit for a subcontract awarded to the ANC or Indian tribe, report only the portion of the total amount of the subcontract that has been designated to your company. For DoD, NASA, and Coast Guard contracts, include subcontracting awards to HBCUs and MIs.

BLOCK 12: Report all subcontracts awarded to WOSBs (including SDBs, VOSBs (including service-disabled VOSBs), and HUBZone SBs that are also WOSBs).

BLOCK 13: (For contracts with DoD, NASA, and Coast Guard) Report all subcontracts with HBCUs/MIs. Complete the column under "Current Goal" only when the subcontracting plan establishes a goal.

BLOCK 14: Report all subcontracts awarded to HUBZone SBs (including WOSBs, VOSBs (including service-disabled VOSBs), and SDBs that are also HUBZone SBs).

BLOCK 15: Report all subcontracts awarded to VOSBs including service-disabled VOSBs (and including SDBs, WOSBs, and HUBZone SBs that are also VOSBs).

BLOCK 16: Report all subcontracts awarded to service-disabled VOSBs (including SDBs, WOSBs, and HUBZone SBs that are also service-disabled VOSBs).

BLOCK 17: Report all subcontracts awarded to ANCs and Indian tribes that are reported in Block 11, but have not been certified by SBA as SDBs.

BLOCK 18: Report all subcontracts awarded to ANCs and Indian tribes that are reported in Block 10a, but are not small businesses.

BLOCK 19: Enter a short narrative explanation if (a) SB, SDB, WOSB, VOSB, service-disabled VOSB, or HUBZone SB accomplishments fall below that which would be expected using a straight-line projection of goals through the period of contract performance; or (b) if this is a final report, any one of the six goals were not met.

DEFINITIONS

1. Direct Subcontract Awards are those that are identified with the performance of one or more specific Government contract(s).

2. Indirect costs are those which, because of incurrence for common or joint purposes, are not identified with specific Government contracts; these awards are related to Government contract performance but remain for allocation after direct awards have been determined and identified to specific Government contracts.

Endangered and Threatened Wildlife and Plants; Proposed Revision to the Regulations for the Nonessential Experimental Population of the Mexican Wolf

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule; availability of a final environmental impact statement and a draft record of decision.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), make available the final environmental impact statement (EIS) on the proposed revisions to the regulations for the nonessential experimental population designation of the Mexican wolf and our draft record of decision (ROD), under the National Environmental Policy Act of 1969, as amended. Our intended action is to revise the regulations established in our 1998 Final Rule for the nonessential experimental population of the Mexican wolf. We also propose to extend the authority of the Mexican Wolf Recovery Program's section 10(a)(1)(A) research and recovery permit to areas that are outside of the Mexican Wolf Experimental Population Area. In the EIS we analyzed the environmental consequences of a range of alternatives, including the Proposed Action and No Action alternative, for our proposed rule. The action would be implemented through a final rule, a revised section 10(a)(1)(A) research and recovery permit, and the provision of Federal funding.

DATES: We will consider comments received on or before December 27, 2014. Comments submitted electronically using the Federal eRulemaking Portal (see **ADDRESSES**) must be received by 11:59 p.m. Eastern Time on the closing date. We will issue a final ROD no sooner than December 27, 2014.

ADDRESSES: *Document availability:* The final EIS and draft ROD are available electronically on <http://www.regulations.gov> in Docket No. FWS-R2-ES-2013-0056, on the Mexican Wolf Recovery Program's Web

Background

On June 13, 2013 (78 FR 35719), we published a proposed rule to revise the existing nonessential experimental population designation of the Mexican wolf. That proposal had a 90-day comment period ending September 11, 2013. On August 5, 2013 (78 FR 47268), we published a notice of intent to prepare an environmental impact statement in conjunction with the proposed rule to revise the existing nonessential experimental population designation of the Mexican wolf. That notice of intent to prepare an environmental impact statement had a 45-day comment period ending September 19, 2013. On September 5, 2013 (78 FR 54613), we extended the public comment period on the proposed rule to revise the existing nonessential experimental population designation of the Mexican wolf to end on October 28, 2013, and announced a public hearing. On October 28, 2013 (78 FR 64192), we once again extended the public comment period on the proposed rule to revise the existing nonessential experimental population designation of the Mexican wolf to end on December 17, 2013, and announced public hearings on the proposed rule to revise the existing nonessential experimental population designation of the Mexican wolf.

On July 25, 2014 (79 FR 43358), we published a revised proposed rule to the
